CITY COUNCIL MEETING OF: JANUARY 16, 2008

MAYOR GOODMAN also read related Items 50 and 51.

JAMES CARMANY, Municipal Court Administrator, requested permission to implement the traffic commissioner program, which will result in an increase in fines and fees that will exceed the cost of the program by about \$300,000 a year. The additional monies will go to General Fund. Efficiencies in collection of fines and fees will result from having a traffic commissioner to focus exclusively on traffic related matters. There will also be an improvement of services to the citizens and an increased judicial focus on other criminal matters.

COUNCILMAN WOLFSON thanked MR. CARMANY and DEPUTY CITY MANAGER FRETWELL for their hard work in getting Legislative approval. This is an excellent bill, and he is looking forward in a year's time to see how the program's revenue has paid for itself.

He then asked for the percentage of people who come before the Municipal Courts that are minorities, to which MR. CARMANY replied that, of those that come to the counter, about 10 percent require assistance in Spanish per day. The Court is spending \$233,000 for interpreters in the court rooms and will be requesting a 20 percent increase for next year. It is expected that about \$45,000 will have to be added for interpreters in the traffic commissioner's court room.

COUNCILMAN BROWN asked if Municipal Court is responsible for the cost of interpreters and if this service is mandated by Statute. MR. CARMANY answered that full-time interpreters are not hired, but Municipal Court contracts with and provides court interpreters that are certified through the State Supreme Court.
